ELECTRONICS MANUFACTURER REGISTRATION INSTRUCTIONS

A. MANUFACTURER INFORMATION

Enter the business name for the manufacturer registering with the department. Also include mailing address, contact person, title of contact person, phone number and manufacturer's phone number.

B. COVERED EQUIPMENT

Mark all covered equipment manufactured by manufacturer registering with the department. Covered equipment refers to equipment that falls under the scope of the law and must be recovered by manufacturer. Covered equipment includes electronic, magnetic, optical, electrochemical or other high-speed processing device performing logical, arithmetic or storage functions. Equipment includes a desktop, notebook or laptop computer, including a computer monitor or other display device that does not contain a tuner and the accompanying keyboard and mouse associated with the computer of the same manufacturing brand.

C. CONSUMER INFORMATION

Manufacturers must maintain a publicly available website that includes collection, recycling and reuse information for all manufacturers' brands both in use and no longer used. Include links to these pages. If a page has not been published to the Internet at the time of registration, provide a copy of the page as an Adobe® Acrobat® PDF with your registration.

RECOVERY PLAN

D. COLLECTION METHOD

Mark which collection method(s) you will be using and describe the method. If using a collection provider, provide contact information for each authorized collection provider and the days and hours the collection provider is in operation. Also, describe public information campaign that will be or has already been implemented to inform the public of your recovery plan.

E. RECYCLING FACILITIES

Provide contact and recycling information for each recycling facility used to process equipment bearing the manufacturer's brand.

BRAND

F. MANUFACTURER'S BRAND

Include all brands, former and current, that are owned or licensed to own and sold in Missouri. Send a JPG image of the brand, at a minimum of 300 dots per inch, to erecoveryplans@dnr.mo.gov.

G. SIGNATURE

An authorized representative of the manufacturer registering with the department needs to sign and date the form. The completed and signed form should be mailed to:

Definitions

Note: The complete, legal definitions, as well as the full text of the Electronics Scrap Management Rule, are available on the Secretary of State's website at www.sos.mo.gov/adrules/csr/current/10csr/10c25-19.pdf.

Brand - The name, symbol, logo, trademark or other information that identifies a whole product rather than the components of the product.

Consumer - An individual who uses computer equipment purchased primarily for personal or home business use.

Covered equipment - Electronic, magnetic, optical, electrochemical or other high-speed data processing device performing logical, arithmetic or storage functions. Equipment includes a desktop, notebook or laptop computer, including a computer monitor or other display device that does not contain a tuner, and the accompanying keyboard and mouse associated with the computer of the same manufacturing brand.

Desktop computer - A computer with a main unit intended to be located in a permanent location, often on a desk or on the floor.

Notebook or laptop computer - A computer with an incorporated video display greater than four inches in size measured diagonally and can be carried as one unit by an individual. A notebook computer is sometimes referred to as laptop computer or tablet computer.

Manufacturer - A person, partnership, co-partnership, firm, company, public or private corporation, association, joint stock company, trust, estate or any other legal entity, which is recognized by law as the subject of rights and duties:

1. Who manufactures or manufactured covered equipment under a brand that the person owns or owned or the person is or was licensed to use, other than under a license to manufacture covered equipment for delivery exclusively to or at the order of the licensor.
2. Who sells or sold covered equipment manufactured by others under a brand that the person owns or owned or was licensed to use, other than under a license to manufacture covered equipment for delivery exclusively to or at the order of the licensor.
3. Who manufactures or manufactured covered equipment without affixing a label with a brand.
4. Who manufactures or manufactured covered equipment to which the person affixes or affixed a label with a brand that the person does not or has not owned or the person is not or was not licensed to use or who imports or imported covered equipment manufactured outside the United States into the United States, unless at the time of importation the company or licensee that sells or sold the covered equipment to the importer has or had assets or a presence in the United States sufficient to be considered the manufacturer.

Recycler - A person or group engaging in recycling of covered equipment.

Recycling - The transforming or remanufacturing of unwanted covered equipment into usable or marketable materials for use other than landfill disposal or incineration. Recycling does not include energy recovery or energy generation by means of combusting of unwanted covered equipment with or without other waste.

Retailer - A person who owns or operates a business that sells new computer equipment, including sales through a sales outlet, the Internet, or a catalog, whether or not the seller has a physical presence in this state.

Reuse - The use of a used product or part of a used product, which has been recovered or diverted from the solid waste stream, for its original intended purpose.

Tuner - An electronic device or circuit used to select signals at a specific frequency for amplification and conversion to pictures or sound.
